## For Students

Welcome to the **Swift English Coursebook series**. Here you can see how to use your book and make the most of it. We want you to develop your language in a way which is right for you so we've designed this book in a way that will help you learn well.

**The Contents pages:** The first thing you will notice are the contents pages. The contents pages are there for you to find the things you want to learn or look at again quickly and easily.

**The Units:** There are 14 units in this book. Each unit has a topic page which gives an idea of what the unit is about. On the unit page you will see a **'Swift Look'** which tells you what grammar points or language you will learn and what skills will be focussed on.

**In Class & Self Study:** Units are divided into two sections. The first two pages will be for in class study with your teacher, the second two pages are for self study, where you can practice what you learnt in that lesson.

**Tasks & Vlogs:** At the end of each unit you will find a task or vlog to do. These tasks or vlogs relate to the unit and are an opportunity for you to practice the English you have studied in a fun and creative way.

**Vocabulary Lists:** At the end of the book you will find a useful set of vocabulary lists related to the units in this book. This will help you build your language.

**Swift Puzzles:** Included at the back of the book are a series of puzzles and creative activities for you to practice the topic based vocabulary from the units.

**Listening Transcripts:** All of the listening tracks that you will listen to in the book have transcripts at the back of the book so you can check anything that you want to from the listenings.

So it doesn't matter if you're using this book as part of a course or learning alone, we hope that you will find all the features useful and helpful in learning English.

Welcome to Swifts! Good luck!
